

## House 5 in Ballyhankeen

The residents of house 5 in the 1901 Census of Ireland, and how are they maybe related to the Murphy family in house 3.

### Background

House number 3 are my direct relations (Great Great Grandfather), my own father was unsure of the connection to the other Murphys but felt there was one a long time back, the later Census 1920 would help as it would place lineage to people he would have know, until then I wanted to look at the possible historic relationship

### Conclusion

My initial conclusion is that the residents of house 5 and my father could have shared a relation in Mathias Murphy

### Research Notes

John, and Mary Murphy Birth details derived from the 1901 census, which also identified their Mothers maiden name

The marriage of Michael and Sabina identified and noted that they had a James and Mary Murphy as witnesses.

On the assumption that the witnesses maybe related I look at all the Murphy births around those of Michael Murphy ( This was done manually but the PTWM Researcher can do this automatically)

Edmond and Margaret Murphy had two boys Michael ( right age) and James

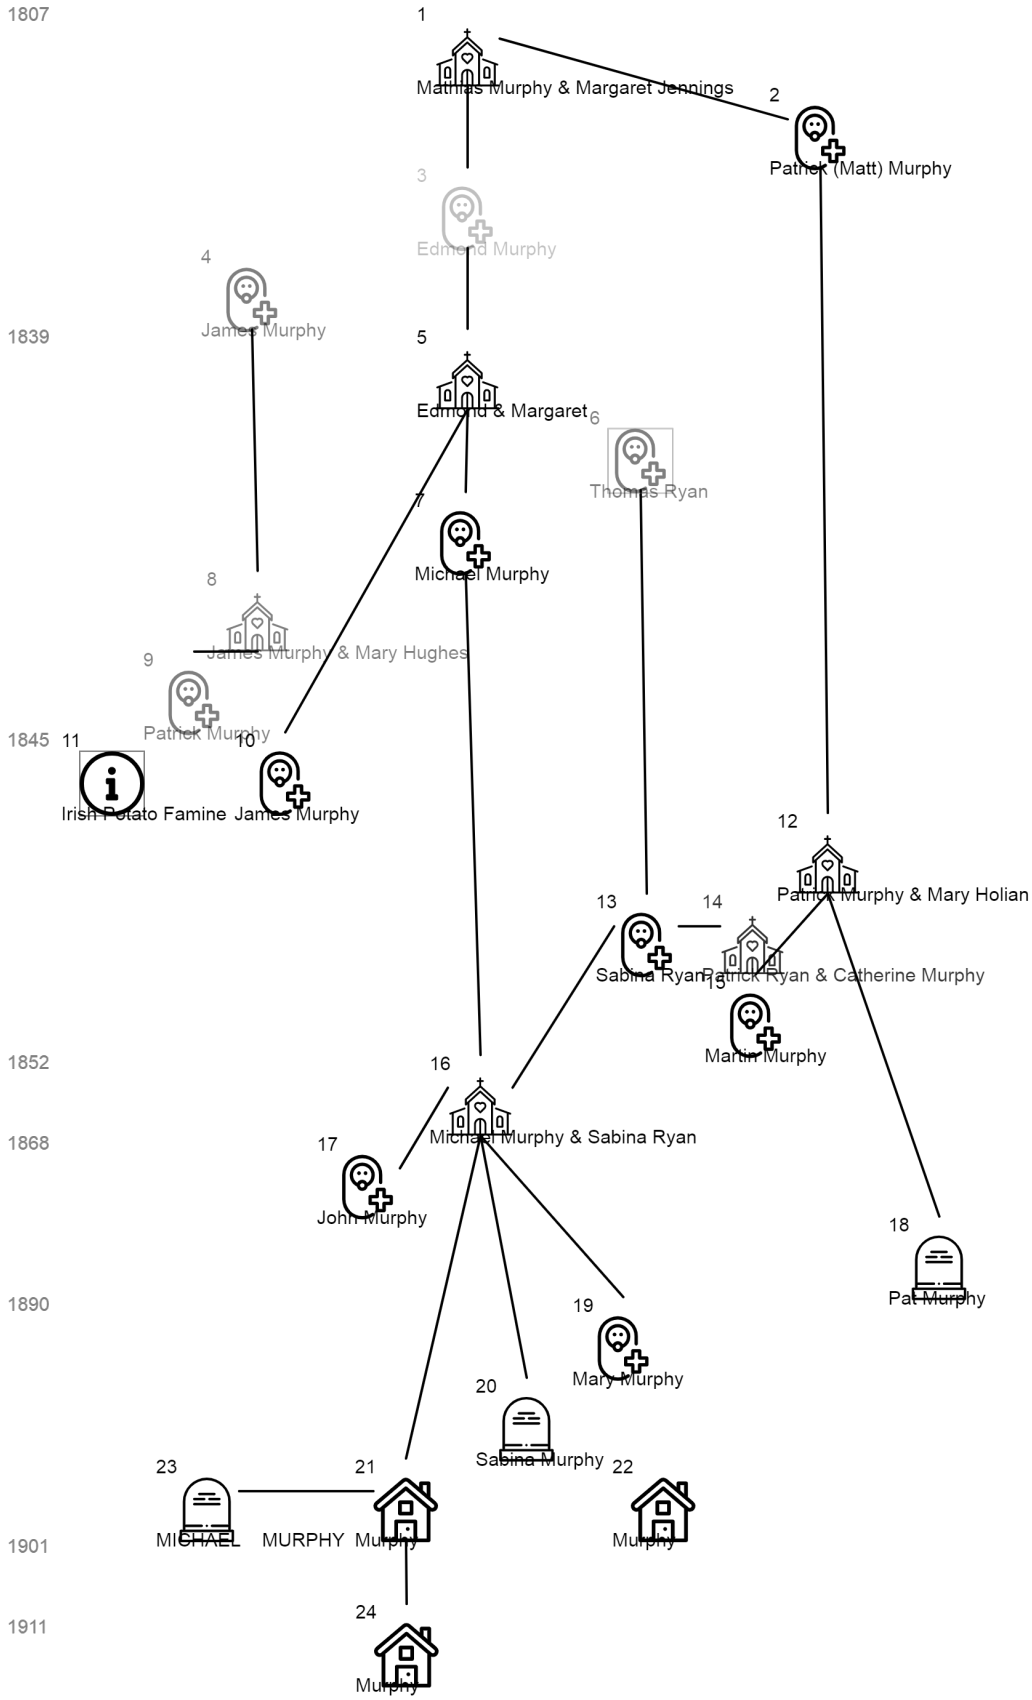

Sabina Ryan married Michael Murphy at the age of 20, and Michael was 27

Sabina Ryan birth 1848 traced from her death record aged 42

Sabina's possible parents married a month before she was born in Galway so this may need updating, there is an alternate Ryan(Ruan) Family in the areas so they should be investigated

The children of Edmond both have a Murphy godparent James and Matthew
