

Pat That Was Mat

Using the Information provided by my Father to confirm details and explore the "Home" place in Ballyhankeen,

Research Approach

The starting place is the Family Tree created by John Vincent Murphy, which is available on line <https://www.myheritage.com/site-429465641/fitzgerald-family-tree>, and using online resources to confirm detail and dates.

The basic structure of the family is as pretty much as documented, and we have been able to add solid dates to many of the relatives

There are two extra siblings of Martin Murphy identified in the census, one Kate is found one requires further investigation

In the original notes Patrick Murphy is called Matthias, from the wedding certificates for his children we can see that he is named as Patrick, the Griffiths Valuation shows Pat (Matthew) as there is a second Patrick in Ballyhankeen. So assuming that its patronymic it lends to his father being called Matthew/Mathias.

Patrick Murphy died at the age of 82

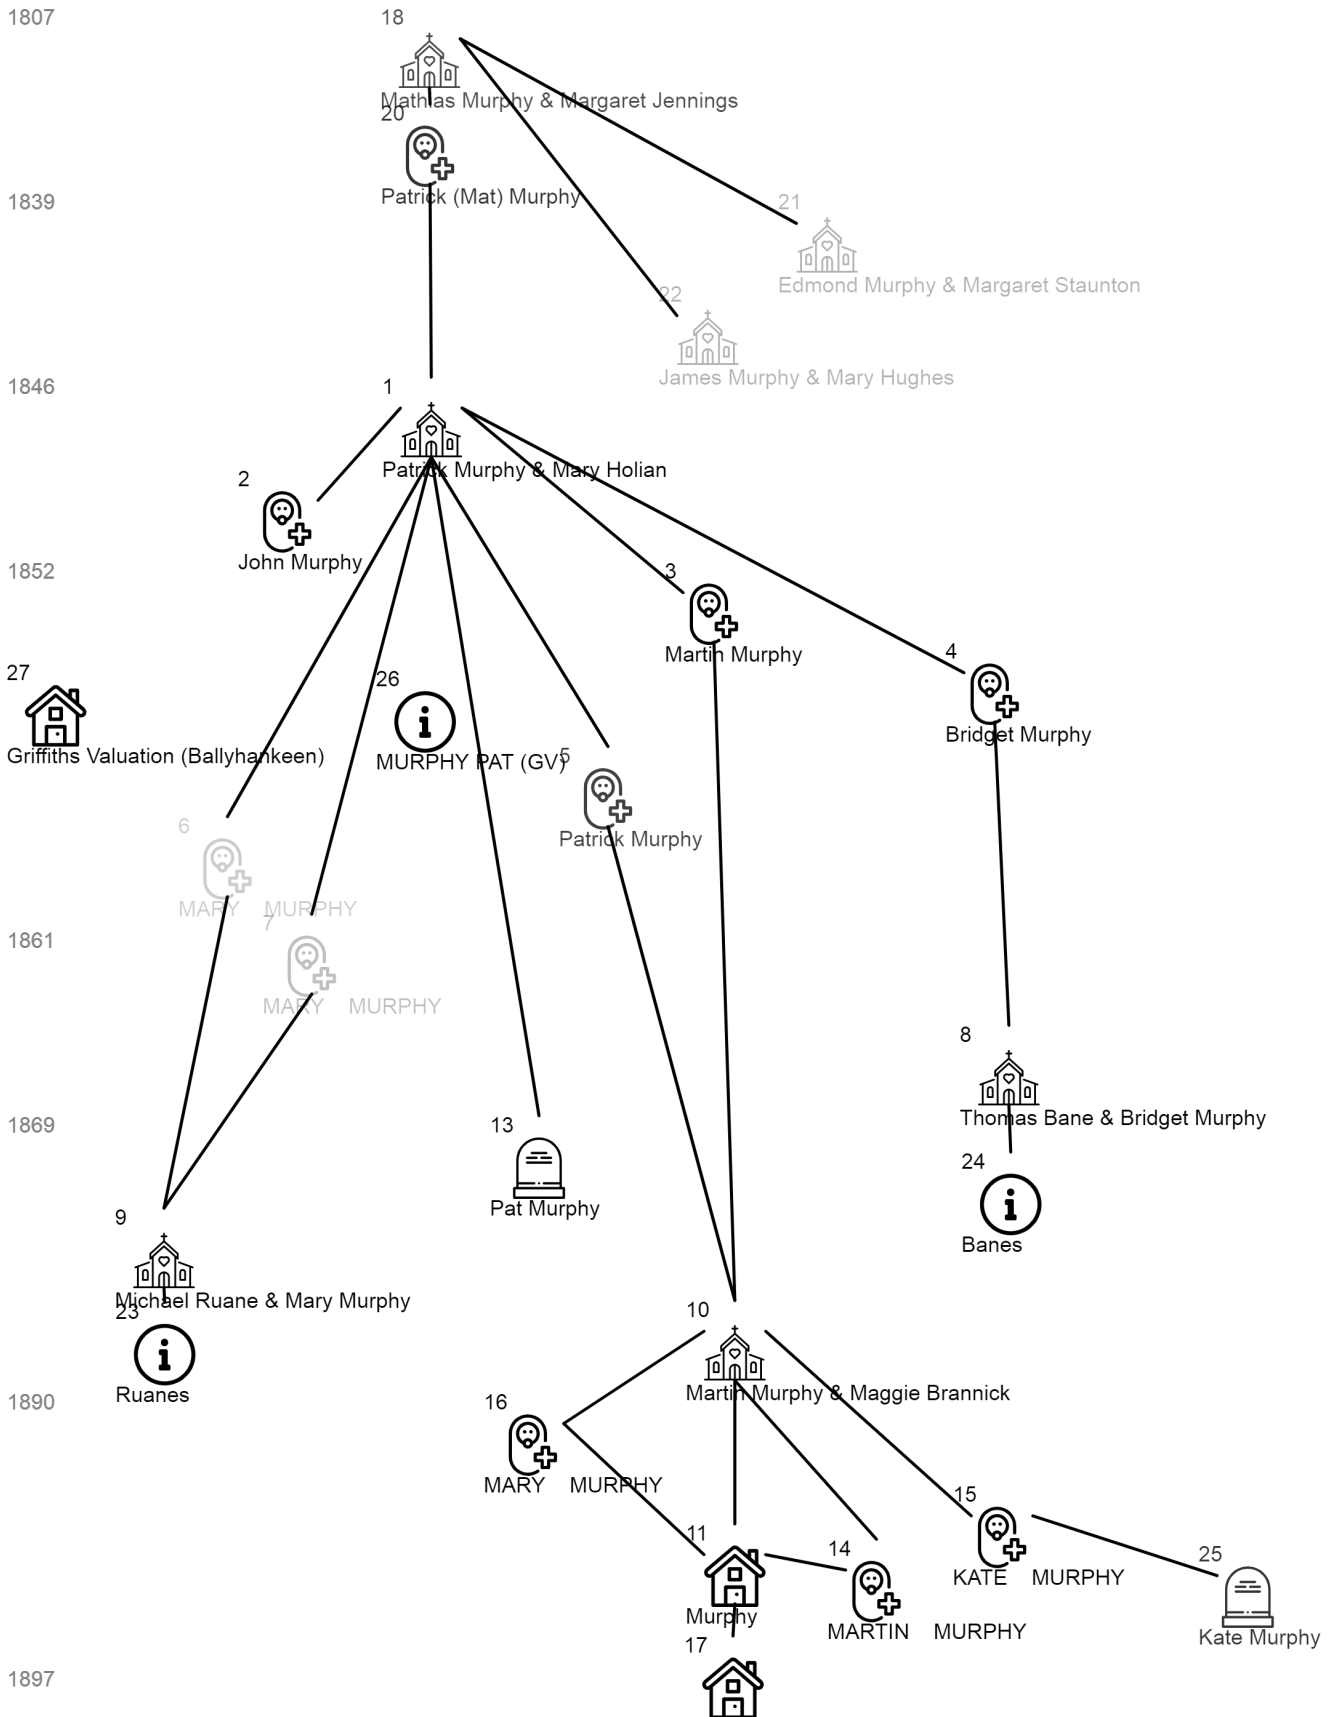

The birth date of Patrick's daughter Mary needs to be clarified

There is some evidence that the Mattias Murphy who married Margaret Jennings is the Mattias recorded by John Vincent, the use of Pat(Mat) and DNA match with a family descended from a Jennings would support this

There were two farms of Murphy in Ballyhankeen in 1856 (according to the Griffiths Valuation), Patrick and Pat(Mathew). The Pat(Matthew) record is a direct relative and can be linked into the 1901 where the farm is run by his son Martin. Separately we have tried to trace the other 1901 Census Murphy group (see research note House 3 in Ballyhankeen), but as yet there is not a direct relative called Patrick.

We were making the assumption (see research note House 3 in Ballyhankeen), that Mattias had maybe three sons (Patrick, Edmund and James), we want to establish if Mattias came to Ballyhankeen or was born there, as we have identified DNA matches with a Murphy branch in County Down

Pat That Was Mat
